LINKERS AND POLYMERIC

CONJUGATES CONTAINING THE SAME

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents Washington, D.C. 20231

January 13, 2003

Sir:

Pursuant to M.P.E.P. §609 and 37 C.F.R. §§1.56, 1.97-1.99, Applicants herewith submit form PTO-1449 (1 sheet) which lists references cited.

This submission does not represent that a search has been made or that no better art exists.

While the term "references" is used in citing the U.S. patents called to the Examiner's attention herein,

Applicants do not make any admission that each or all of them are "prior art" references within the

meaning of the statutory and case law.

Applicants reserve the right to contend, where appropriate, that a patent asserted against any claim of the present application is not prior art under the facts and the law.

Applicants also reserve the right to present appropriate arguments and/or evidence to establish patentability over the references, should one or more of the references be applied against the claims of the present application.

Applicants request that the Examiner independently determine those items which the Examiner would consider the most pertinent of all the references cited herein.

This Supplemental Information Disclosure Statement is filed before the mailing date of a first Office Action on the merits. Accordingly, this document complies with the requirements of 37 C.F.R. §1.97(b).

No fee is believed to be due. Any deficiency or overpayment concerning this document should be charged or credited to Deposit Account No. 50-0217. A duplicate copy of this sheet is enclosed.

It is respectfully requested that the references cited in the accompanying PTO-1449 Form be considered and made of record.

Respectfully submitted,

Muserlian, Lucas & Mercanti, L.L.P.

Sapna Gadhia
